Kingray Passive Devices - Splitters, Taps & Diplexer

Foxtel Approved

New to the Kingray range is a variety of splitters & taps plus a diplexer which are approved for use with the satellite multistacker & TDT installations.

Due to all the Foxtel satellite services being distributed on one polarity now, all components within a multistacker SMATV & TDT backbone system must pass frequencies from 45 to 2400MHz.
